OF PRICES ON AND AFTER MONDAY.

Calf Skins Touch the Lowest Price Since Before the War.

## A DROP IN HOGS AT EAST LIBERTY

OFFICE OF THE PITTSBURG DISPATCE, SATURDAY, January 5, 1889.

The market for hides has shown a downward drift for a month or two past. In the early part of December, light hides were reduced 1c per pound, and now heavy hides have been fixed to follow suit. A drop in heavy hides of le, and calf skins of 1/2c per pound was agreed upon by the leading tanners of Allegheny this week, the reduction to go into effect Monday, January 7. Prices are now fully le lower all around than at this time last year when it was thought bottom had been

Said a leading dealer in bides: "The demand was very poor all through last month, and there is, thus far in the new year no noticeable improvement. Tanners have been stocking upat present low prices, and are generally provided with stock a mouth to six weeks ahead of needs. This tends to depress markets. We have had similar spells before, and feel confident that the depression will work its own cure, when tanners once get stock worked up, which cannot be longer than a mouth hence. In the 16 years I have been in the business I have never known hides as low as they are now. Old timers say that hides have not been as low since before the war as they are now. There can bardly fail to be an improvement in prices and demand in the next few weeks. The situation is now at its worst. Things can't stay long at the worst, and as we leed that our trade is at its worst, are confident of an improvement between now and February." improvement. Tanners have been stocking upat

CALPSKINS CHEAP. Raw calf-skins, according to the testimony of

dealers, have not been as low in the memory of the oldest inhabitant as now.

Not more than a dozen years ago the price was 15c per pound. Year by year prices have baily shibment Daily charters. the oldest inhabitant as now.

Not more than a dozen years ago the price was lie per pound. Year by year prices have been drooping until, as will be seen by quotations below, 556c is now the figure. The reason for this decline is thus given by a dealer: "By improved machinery tanners are now enabled to split cuw hides into three pieces, two of which are tinished up so as to make as good an pearance as the average calfskin.
"The growth of this split-leather trade has brief against the demand for calfskins, and ought prices of the latter down to these prestled with the calfskins and the calfskins."

ent low figures."

HOGS.

At Chicago to-day hogs have advanced strong 19c and markets are reported firm at the advance. At East Liberty receipts have been large and prices are off about 20c from the middie of the week. Rates here are fully 15c be-low Chicago rates to-day.

The average weight of hogs received at Chi-cago for December was 262 pounds. For the same month of 1887 the average was 255, an in-crease of 27 pounds, which dealers consider im-

mense.
In ordinary seasons heavy hogs bring from 25
to 80c per pound more than light hogs. This
year they are about 10c lower. Heavy weights
are too plenty, light weights not up to demand.

## THE WORK OF A WEEK. \*

A Review of Business Matters Shows Every-Pittsburg-A Determination on All Sides to Brenk Las; Yenr's Splendid Record-An Encouraging Prospect Ahead.

A review of the week's operations in local business circles discloses several interesting features. The feeling in all directions was hopeful, if not buoyant. Trade, almost without exception, showed a gain over the corresponding period of last year. There were no breakers ahead so far as could be discovered. Everything was resting on a substantial basis. There was very little ballooning. Money was working easily, accommodations being readily obtained on accented collateral. Iron men had reason to expect a turn of the tide in their favor. Coal and coke were being placed on a better basis. Stocks were in demand with a large aggregate advances. Oil was unsettled under bearish in-fluence, and the result of the week's efforts was to leave prices fractionally. was to leave prices fractionally lower. The granted will aggregate about \$15,000. Real The Great Grab-All Getting Aggressive in estate, especially building sites, found many applicants, and a large number of sales were

## STOCKS GAINING GROUND.

The Market Active and Prices Firm-More Buyers Than Sellers.

Stocks exhibited a waywardness Saturday lion's share of attention, and moved up and down with a celerity that would have done credit to an acrobat. The variation and moved done were so small as to cause no particular alarm to either side of the market. Chartiers Valley made a substantial gain over the preceding day. All the gas shares were active and generally firm. Westinghouse Electric recovered some of its lost ground. There was no special demand for Traction stock. The general tone of the market was firm. The total sales aggregated 871 shares, of which 740 were Philadelphia Gas. There was a heavy demand for bank stocks, but the relies were few.

phia Gas. There was a heavy demand for bank stocks, but the sellers were few. ## THE NIMBLE SHILLING.

Banking Operations Show on Increase Over

Same Time Last Year. usiness at the banks for the first week of the new year shows a material increase over that for the same time in 1888, with a still better prospect. Business in nearly all lines is so active and so indicative of expansion that an unusual demand for money is expected in the near future, sufficient, it is thought, to absorb the large amount of funds that has accumulated within the past few weeks.

Bankers have been too busy since the begin-

Bankers have been too busy since the begin-ning of the year, cutting compons, collecting dividends and straightening up accounts, to pay close attention to strictly legitimate business, but nevertheless they all concur in the statement that the financial situation is peculiarly

gratifying.

While there was no special movement in monetary circles yesterday, business was far removed from the Rip Van Winkie state. Large amounts of cash were taken in over the counters and considerable paid out—the former being "in a large majority." Rates were un-changed. There was a better demand for ex-change, but not enough to disturb the equilibrium with currency.

Analysis of the Clearing House business for

the week (four days) shows the following re-2, 864, 121 20 2, 405, 788 65 2, 442, 594 55 2, 138, 106 42 Thursday. Friday....

Totals for the week, \$12,202,089.34 \$1,823,318.73 Exchanges, dally average 2.460,417.87 For the same week last year the exchanges were \$11,369,212 19 and the balances \$1,504,021 65 At New York money on call was easy at 284 per cont. It was offered at 3 at the close. Sterling exchange was active and steady at 484% for 68-day bills, and 488% for demand. Prime mercantile paper ruled at 5% 7. Government and State bonds were only and State bonds were dull.

The weekly statement of the New York banks is as follows: The banks now hold \$7,272,495 in excess of

Boston - Clearings today, \$14,280,370; bal-inces, \$1,702,155. Money, 5 per cent. BALTIMORE — Clearings to-day, \$2,336,478; salances, \$315,910. For the week, \$702,790,118; balances, \$38,490,126.

SHORT AND SWEET, Twenty Minutes of Good Trading in Oil,

Closing Dull and Lower. The bulk of the business at the Oil Exchange yesterday was transacted in the first 20 minutes. There was considerable excitement at the opening, attended with free buying. This the opening, attended with free buying. This stiffened the market and prices moved up a point, to 89½. Trading then relapsed into a state of duliness, which lasted until the close, which was ½ below the opening. The market closed weak and uncertain as to the future, owing to the impossibility of fathoming the designs of the Standard. That it is engaged in a deal of some kind no one doubts.

Pivotal prices ranged: Opening, 86; highest, 80%; lower, 86; closing, 80%. Field news was a little more encouraging. Brokers almost without exception concur in the opinion that there will be little or no improvement so long as prices remain on the existing basis. Ninety-ent or dellar oil would interest outsiders and quicken trade.

quicken trade.

An Experiment in Drilling-A Big Purchase -Officers Elected. PEPECIAL TELEGRAM TO THE DISPATCH.

WASHINGTON, PA., January 6,-An experiment of great interest to oil men is about to be tried in the Taylorstown field. Contractor Yorke, who has the contract for sinking Thompson No. 4, is making arrangements to test a wire cable for drilling. He is using a five-eighths-inch wire rope as a sand line, and it has given perfect satisfaction. The price of the common hemp cable now in use recently # h less.

Green bull hides, with one or more grubs, 15c w has given perfect satisfaction. The price of the common hemp cable now in use recently advanced 234 cents a pound, making it cost 1514 advanced 234 cents a pound a cents, and the cost of a 2,400 foot cable, weighing 3,200 or 3,300 pounds thus formed a large portion of the contractor's expense. The wire cable which Mr. Yorke is preparing to use will be one inch in diameter, and besides weighing less per foot than the old hemp cable, will cost only about one-fourth as much per pound. Attempts have already bee runde to supercede the hemp cables with the wire ones, but for some reason they have never come into use. Pat Galligan, the well-known contractor, says that he helped drill a well on Oil creek with a wire cable 22 years since, and that it worked very nicely, but did not harmonize with the imperfect machinery of those days. About 14 years since, at St. Joseph, Butler county, an attempt was made to pump the Weiser well with a wire cable in lieu of sucker rods, but it was a failure, as the outside strands would soon wear out and the pieces which dropped down interfered with the valves. cents, and the cost of a 2,400 foot cable, weigh-

out and the pieces which dropped down inter-fered with the valves.

Joe Craig has made another big purchase in the Taylorstown field, paying \$15,000 for the interest of Pat Biggins in the White farm. Mr. Biggins owned a three-sixteenths interest in the Shamrock and one-pighth in the Allegheny Oil Company, which together control 98 acres of the White farm, and they now have three wells. No. I is making \$5,30d No. 2 110 barrols of the White farm, and they now have three weils. No. 1 is making 35 and No. 2 110 barreis a day. No. 3 is just being completed and shows good for probably 150 barrels a day. Its coming in this way makes quite a lot of the surrounding territory which was apparently condemned by the dry holes drilled by Caldwell & Co., on the W. B. and S. J. Crothers farms, look quite good again. The Elyria Oil Company's Weirich well should be in shortly and give some indication as to how far south the pool extends. Quite a serious mischance happened at the Buffalo Oil Company's William Knox No. 6 a day or two since. An attempt was made to shoot the well with 20 quarts, but it was not known whether the glycerine exploded or not. The next day the tools were run and coming in contact with the glycerine exploded it, shattering the tools and probably niugging the hole.

The following officers of the Weil Drillers' Union, of this place, were elected last night: The following oncers of the well briners Union, of this place, were elected last night: President, Daniel Bell; First Vice President, William Green: Second Uice President, George Swingle: Recording Secretary, James Callinan; Financial Secretary, Frank Coulter: Delegate to General Assembly, Frank B. Snyder.

Buffalo Oil Company's Knox No. 4 has been delibed through the sand and is small. It is

LEASED BY THE STANDARD.

the Vicinity of Bellaire. PEPECIAL TELEGRAM TO THE DISPATCH.1 BELLAIRE, January 6.-Representatives of the Standard Oil Company have leased most all the farm land west of this city at \$1 an acre. This company has held leases in this county for over three years, but not until the indica-tions were favorable for oil at Glencoe did it ecome aggressive. There is lots of oil at the latter place, but the

MOVING UPWARD. Stocks Without Special Feature but Close a

Trifle Higher. NEW YORK, January 5.-The stock market was not so dull as it has been on some previous Saturdays to-day, but it was as devoid of feat-tire as possible, and the result of the day's transactions is to leave almost everything but slightly changed. There was very little doing on the part of the commission people and out-siders, and except for Jersey Central and New England the movements in the list were entirely unworthy of notice. The Grangers, on account of the settlement of the strike on the account of the settlement of the strike on the Burlington, were rather better supported, but they moved within the narrowest limit.

The supporters of Jersey Central seemed to have exhausted themselves in the effort to get it to par and it slowly fell back to 97%, but recovered a small fraction before the close. The temper of the room was bullish, but the only stock making any movement of importance in the upward direction was New England, and although the sales made were said to be for Boston account, there was a good demand for the stock, and it scored a gain of nearly a point, but lost a portion later. The advances are in a small majority this evening, but are confined to fractions. Railroad bonds were quiet but firm to strong throughout, and final figures show marked gains in some instances. The sales were \$677,000.

PROPERTY ON THE JUMP.

Real Estate Transfers Make a Good Show-

ing-The Sales Increasing. Three of the principal real estate dealers on Fourth avenue when buttonholed for news yesterday got off by saying: "We have something hig on the string, but it is not in shape to make public," It is understood that one of the "big things" refers to the sale of a business house on Penn avenue and another to a dicker of the

place is caused by the electric road. They also closed a mortgage on McKeesport property for \$1,500, three years, at 5 per cent, and one on Coraopolis property for \$1,200, three years, at Coraopolis property for \$1,200, three years, at 63-10.

Ewing & Byers placed a mortgage of \$1,700 on property in the Second ward, Aliegheny, for three years, at 6; also placed a mortgage of \$1,000 on West Believue property at 6 per cent.

W. 3. C. Floyd sold to James Mullen one lot for \$300; to Thomas Murro, one lot for \$450; to John Small, one lot for \$500; to John Fagin, two lots for \$550; Lewis Edwards, two lots for \$400; to James Gallagher, one lot for \$300; to Hen Eichenberg, one lot for \$425; to Alex. Gibson, one lot for \$450; also, five others at similar prices. All these sales were effected the past week, several ot them yesterday.

Samuel J. Fleming, 147 Fourth avenue, sold to Oswaid Werner, 36x120 feet, Forbes street, Bellefield, for J. O. Petry, for \$2,525, being a fraction over \$70 per foot front.

John F. Baxter sold to Jacob Schumacher, lot No. 48, Bank of Commerce addition extended, Brushton station, frontage o. 50 feet on Baxter street by 250, for \$500.

Black & Baird, 55 Fourth avenue, sold to John H. Armstrong a lot on Perry street, Eleventh ward, city, 20x112 feet, for \$500; also to William J. Williams a lot on Hamilton street. Twenty-seventh ward, 20 by about 50 feet, for \$125.

EGYPTIAN MONUMENTS.

Steps Taken to Protect the Old Tombs and Monuments.

Cairo Letter to New York Mail.] The Egyptian Government has at last taken steps to preserve the monuments from the further detacement of the tourist and the destruction of time. A law went into effect two weeks ago obliging all who wish to visit the temples, tombs and other antiquities on the Nile to carry a ticket which costs \$5. It is estimated that this admission fee will yield an annual revenue of \$10,000. Every lover of art and history will be glad to hear that the sum is wisely used to pro-tect an architecture which has been left utterly unprotected for centuries. The learned and the unlearned alike have made ree with ancient inscriptions and sculpture. Lepsius enriched German museums by chiseling out royal cartouches from the tombs of the Kings at Thebes, and the Egyptian peasant chips off without restriction any portion of sculptured figures that may realize a small reward from the seeker of relies

of relics.

No land has been so generous with her monuments as Egypt, from the obelisk, which the late Mr W. H. Vanderbilt removed from Alexandria to the Central Park, New York, down to the valuable cruciform inscriptions discovered last winter at Tel-el-Amarna; but Egypt cannot afford to allow the work of hacking and destruction to continue upon her great monuments which will never be removed. The only illustration of an attempt to preserve from decay which I have seen was at Philæ. A large slab of the pediment of Pharach's Bed, which was cracked and about to fall, threatening the disfigurement of the entire beau-tiful structure, has been frapped by a band of iron and held in place. The inscription indicates the parties who did it: "2d Comp. R. E., 1887.

PRESIDENT GREEN TALKS

On the Suit Brought Against the Western Union by the Attorney General. PHILADELPHIA, January 6,-The Phil-

adelphia managers of the Western Union Telegraph Company were served with writs of quo warranto yesterday commanding them to appear at Harrisburg on the 29th instant to explain why their property in Pennsylvania should not be forfeited to the Pennsylvania should not be forfeited to the State because of the alleged violation of the Constitution and the laws in the purchase by their company of the Baltimore and Ohio Telegraph Company, a competing line.

Dr. Norvin Green, the President of the Western Union, in speaking about the suit,

said:

There is no good ground for the suit, and we are not at all disturbed by it. Just who the parties that have instituted the suit are I do not know, as I have not seen the papers. At the time of the purchase of the Baltimore and Ohio property by us we guarded against the very points that are raised by this suit. Under the United States law of 1886 all telegraph companies were given the right to correct their panies were given the right to operate their lines in all States, and even if there is a Pennlines in all States, and even if there is a Pennsylvania State law, as is alleged, it would have no effect in the face of the United States law. The United States Supreme Court has decided over and over again that telegraph business is interstate commerce, and cannot be interfered with by State action or statute.

There is no consolidation of the Western Union and the Baltimore and Ohio Telegraph Companies. The latter is still maintained as a separate and competing company. Then again the Western Union, when it made the purchase, did not buy that portion that was operated under the Pennsylvania charter. The Baltimore and Ohio parent company was chartered under the Maryland laws. In each one of the other States, where the company built lines separate State charters were secured, and each of these separate companies was leased by the original company. The Pennsylvania Company was not included in the purchase, we expressly refusing to purchase, as we were aware of the stringent State charters and id not one of the stringent State charters. pressly refusing to purchase, as we were aware of the stringent State charter and did not care

FIGHT FOR A COUNTY SEAT.

to enter into any controversy over it.

Nebraska Citizens Unsing Winchester Rifles to Protect the County Records. ELWOOD, NEB., January 6 .- The Sheriff

and a posse of 75 men made a descent on Homerville yesterday, and in the absence of the county officials at McCook, disarmed the citizens who were guarding the court house with Winchester rifles, and brought back a portion of the county records to El-

wood.
On November 30 a long and bitter fight for the location of the county seat of Gosper county culminated in an election in which the necessary two-thirds vote for its removal from Homerville to El-wood was secured. Homerville, however, refused to give up the records. The latest development of course divides the records between the two towns and broadens the chasm between their respective citizens, with excellent prospects of further hostility in the near future.

THREE KILLED.

Fighting Between American and Mexican Cattle Men in Arizona.

Tucson, ARIZ., January 6 .- Advices from Solomonville, Ariz., say James Lassi-ter, foreman of the Chiracahua Cattle Company's camp on the Bonita river, a tributary of the Gila, has arrived and brings news of the trouble between the company's men and some Mexican sheepmen from Apache country, which resulted in the kill-ing of at least three Mexicans on Thursday. He states that the Mexicans have been grazing a flock of sheep near the company's range, which brought on trouble, and the Mexicans on Thursday ambushed some of the company's men. It seems, however, none of the latter were killed, while it is probable all the sheepmen met their deaths. The under-Sheriff and the Coroner have gone to the scene of the trouble.

TWO STEAMERS COLLIDE.

One Goes to the Bottom and the Chief Engineer is Drowned.

BALTIMORE, January 6.-The British steamship Montana, Captain Williams, which sailed this morning for London with an assorted cargo and 214 head of cattle, was this afternoon in collision off North Point with the North German Lloyd's steamer Main, Captain Jaegar, which was coming in from Bremen. The Montana was struck full in side and sunk in a few minutes. Chief Engineer Robert M. Young was killed, but the rest of the crew was transferred to the Main.

The latter vessel was not injured. The Montana is one year old, was 320 feet long, and was valued at \$300,000. The cargo was worth nearly as much more. The latter was mostly shipped through from the West, a considerable portion being consigned by Armour & Co., of Chicago. The greater

on Penn avenue and another to a dicker of the same sort in Allegheny. There are plenty of applicants—mostly for residence properties—but they hesitate at the prices. As there is no prospect of a tunable they would probably make money by investing at once. The transfers consummated are noted below:

Alles & Balley sold a business property on Fifth avenue, two squares from Court House, for \$7,000. The name of the purchaser is withheld.

Reed B. Coyle & Co. sold 24 lots in the R. M. Kennedy plan, Homewood station, Pennsylvania and Ohio, 60@61c; No. 1 Western, 50@58c; new rye, 55@57c.

MARKETS BY TELEGRAPH.

A Break in Whent Caused by Speculative Offerings—Corn Neglected—Oats Active Pork Steadier—Lard Firm.

CHICAGO—There was a very fair aggregate trade in wheat to-day and the feeling was unsettled. The news was of a variable character and generally made to appear favorable to the bull side, and although prices ruled higher at the start, the speculative offerings were too heavy to sustain the market and a weak feeling set in. A prominent local operator was credited with having fed the market with wheat most of the session, and as other oper ators were all loaded with long wheat the define brought most of this out, thus aiding in establishing the decline. The opening was some %c higher than yesterday, advanced %c and closed %c lower than yesterday. There was a rumor that drought in India was doing damage to the crop there, and that shipments, some and light \$1.000 head of through; 15,000 head sale; market steady; choice beeves, \$1.500 ked; siter to \$2.000 ked; siter to \$2.000 ked; \$3.000 head; shipments, \$1.000 head; shipments, some 1/2c higher than yesterday, advanced 1/2c and then declined 1/2c, advanced 1/2c and closed 1/2c lower than yesterday. There was a rumor that drought in India was doing damage to the crop there, and that shipments from Russian ports were cut off by ice. Some export demand was again reported at Baltimore.

Corn was in much the same condition as on yesterday, there being but little disposition among local operators to trade to any extent, and the pit at times was quite deserted. The feeling was notably steady and fluctuations limited to 1/2c range, the market closing about the same as yesterday.

In oats a good business was transacted early in the session. Offerings by several large traders were free and prices for May declined 1/2c. After the urgent sellers had withdrawn there was a little offered, a few buyers came in, and prices reacted to opening figures.

Ouly a fair trade was reported in mess pork, and the feeling was steadier. Little was doing outside of May contracts. Opening sales were made at 5c advance, and a further improvement of 5c was gained. Later the offerings were increased somewhat and prices declined 12/2/2/2lo.

Toward the close the market was stronger and prices rallied 20/22/2c, closing comparatively steady.

Trading was only moderately active in lard, and the feeling was steadier. Prices ruled 7/2 2010 higher, and the market closed steady.

Only a limited trade was reported in short ribs and the market was comparatively steady.

Prices ruled about 7/2/2010 higher and closed quiet.

The leading furrers anged as follows:

Movements of Specie.

New York, January 5.—The exports of specie from the port of New York last week amounted to \$412,270, of which \$198,627 was in gold, and \$213,648 in silver. All the gold went to South America, and all the silver went to Europe. The imports of specie last week amounted to \$92,648, of which \$48,337 was in gold and \$15,751 silver.

Drygoods. New York, January 5.—The market was restricted, but relatively fair. Prices at first hands are unchanged and under a firm tone. Jobbers experience an active local demand for wash dress fabrics, and are doing a good packiness in plain cottons.

Metal Markets. NEW YORK—Copper quiet, unchanged. Lead easier and inactive. Tin dull and steady; Straits, \$21 95. ST. Louis-Lead firmer; common, \$3 62% corroding and chemical hard, \$3 65.

THE NATIONAL REMEDY, PRAISED BY ALL BILIOUS HEADACHE, Biliousness, Dyspepsia, Indigestion, Constipation, Dizziness

Positively cured by LITTLE HOP PILLS, The People's Favorite Liver Pills.

They act slowly, but surely, do not gripe, and their effect is lasting; the fact is they have no equal. Small dose; big results. Sugar coated and easy to take. Send for testimonials. 25c, at all druggists, or mailed for price. Prepared by an old apothecary. Five bottles \$1.

The HOP Pill CO., New London, Ct.

Hop Ointment cures and makes chapped rough, red skin soft and clear. 25 and 50c.

OUTSPOKEN SCIENCE.

nol-MWF

The following statement came voluntarily to the proprietors of the great preparation of which it speaks. They have never had the pleasure of meeting the eminent scientist who wrote it, but appreciate the honest cando which prompted it:

TO WHOM IT MAY CONCERN: This may certify that as the result of extend ed researches 1 am able to state that, in the Duffy Malt Whiskey alone, there is to be had such a pure article as I have described in my paper on "A Scientific Specific for Intemprance," in the North American Review for July, 1888. It is, of course, a well-known fact that we may procure, as a laboratory product, a whiskey that shall be free of fusil oil: but it is with pride that I state that alone of commerthe brain and the system.
